LUNIO DTO-W **29230** max 35 white

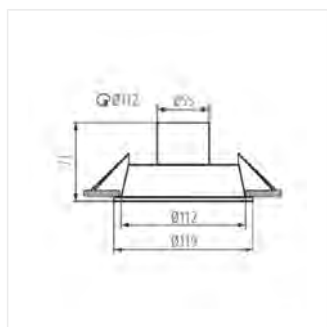

Kanlux LUNIO is a new type of eye characterized by unique pattern. The basic setting of the eye ensures that light falls at the angle of 20-35 degrees, however you can turn the base with a tube by the angle of 350 degrees. The tube with the source can be based on the base edge or be moved back into the inside of the base.

- Decorative ring without a ceramic frame
- Enclosure material: aluminum alloy
